<p><b>Bespoke Courses or Support</b></p> <p style="text-align: center;"><b>Geeks Experience session</b> Fees on Request</p> <p style="text-align: center;"><b>Young Adult Provision session</b> Fees on Request</p>	<p><b>Holiday, Events, and Boot Camps</b></p> <p style="text-align: center;">Pricing and Information about upcoming events can be found <a href="#">here</a></p>

# Session Fees are calculated by the Geeks Experience Standard Base Price PLUS the additional support package or packages required, if any \*

## Example A:

If **Student A** on **Geeks Experience** requires sessions in our **1 to 1 room**, the total termly fee will be £315 + £1750= **£2065** (Per Term based on one two-hourly session per week).

## Example B:

If **Student B** on **Geeks Experience** requires **additional support** inside the main session, total termly fee will be £315 + £875= **£1190** (Per Term based on one two-hourly session per week).

## Example C:

If **Student C** on Geeks Experience requires no support, total termly fee will be **£315** (Per Term based on one two-hourly session per week).

## Example D:

If **Student D** on our **Young Adult Provision**, requires sessions in our **1 to 1 room**, total termly fee will be £1153.60 + £3561.48 = **£4715.08** (Per Term based on one full-day per week).

*\*At Geeks Room, we believe that each individual should have access to an inclusive environment that allows for them to develop their skills at their own pace. We believe in providing support based on their ability rather than their age, where the individual can decide their own outcomes and timeframes. We are flexible in our approach and follow the lead of the individual. Our goal is to develop independence and confidence, with the end-goal of integrating individuals into group sessions, where they can engage independently. We require all prospective students to attend a tour, after which the management team can agree on what support is essential for the individual in our setting. This support can be adjusted over time, at the management team's discretion.*

## Pricing and Fees FAQ

### What is the difference between Geeks Experience/ Young Adult Provision pricing?

Students can attend two-hour long Geeks Experience sessions, from ages 8 – 18. Our Young Adult provision offers day sessions between 10AM and 4PM, for those up to age 25.

### What do you mean by 1 to 1 room?

At Geeks Room we have dedicated rooms designed to allow students purposeful spaces to engage in our sessions, without needing to be able to attend our main sessions. Our primary goal would be to reintegrate them into our main sessions at their own pace.

### How does the additional support work?

For students who may find our main sessions challenging to attend and engage in, we can discuss and tailor a support package to the students' needs within our main Geeks Experience sessions, without having to require a 1 to 1 room.

### Can someone attend with the student?

If a student needs transition support, we have a space out of the main session rooms, available for parents/guardians to wait during the sessions. However, if a student requires a PA, TA or other person (outside our organisation) to be present/needed within sessions, an additional fee will be incurred to cover the cost of the extra space required.

### What is included with a Bespoke Course/Bespoke Support?

Our bespoke courses allow us to tailor sessions to more specific needs, desires or learning objectives apart from what our Geeks Experience Sessions can offer. Please contact us to discuss this further with our team.

### Can they attend more than once a week?

Our pricing structure is designed around one session per week, which is for two hours. However, once a student is settled within our session, we are open to discuss increasing the amount of sessions they attend per week if it would suit the student. This would be invoiced as an additional session.
