Cookie Policy

INFORMATION ABOUT OUR USE OF COOKIES

The Geeks Room CiC website, like most sites, uses small text files called cookies. This note provides information on what cookies are, which cookies Geeks Room uses, and how they can be controlled.

Our website uses cookies to distinguish you from other users of our website. A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies helps us to provide you with a good experience when you browse our website and also allows us to improve our site. By continuing to browse the site, you are agreeing to our use of cookies.

We use the following cookies:

- Strictly necessary cookies: These are cookies that are required for the operation of our website. They include, for example, cookies that enable you to log into secure areas of our website such as forums and forms.
- Analytical/performance cookies: They allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This lets us improve the way our website works, for example by helping us to ensure that users are easily finding what they are looking for.
- Functionality cookies: These are used to recognise you when you return to our website. This enables us to personalise our content for you.
- Targeting cookies: These cookies record your visit to our website, the pages you have visited, and the links you have followed. We will use this information to make our website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

For more information about the individual cookies we use, you can contact us at admin@geeksroom.org.uk.

Please note that third parties (including, for example, advertising networks and providers of external services such as web traffic analysis services) may also use cookies, over which we have no control. These cookies are likely to be analytical/performance cookies or targeting cookies.

You are able to block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies), you may not be able to access all or parts of our site. We recommend you visit www.aboutcookies.org for detailed guidance.

Except for essential cookies, all cookies will expire after we no longer use them and in any event within two years of your session.
